Website Design Mockups Feedback

- I like the direction of the first one, let's plan to keep going with that
- It was mentioned in class session that it should be more clear immediately what booktok is - some ways to do this are:
    - Add a few sentences of explanation right after the title (you can just take the first paragraph of the wikipedia entry and even cut that down if you want)
    - Add a subtitle under "More than a trend" that says something like "The impact of BookTok has been widespread" (doesn't have to be exactly that)
- I like the book list in the second mockup, could you bring it into this design? And add images of the book covers?
- If possible, could be interesting to add stills from popular booktok videos somewhere - maybe between hero banner and the "More than a trend section"
- Need some sort of footer
- Still unsure what we should include as the hero image, but I think it should change from the books that say "the stories we share" and "one more chapter"
    - Could be something like this maybe
- Maybe remove "repeat" from the green banner
- I like the motif of the period, keep using it for the rest of the pages
- Overall it looks great!
